JOURNAL ARTICLES

1. Wang, Ting-I, R. J. Lataitis, and G. R. Ochs (1982): Laser weather identifier: Present and future, *J. Appl. Meteorol.*, 21, 1747-1753.
2. Clifford, S. F., and R. J. Lataitis (1983): Turbulence effects on acoustic wave propagation over a smooth surface, *J. Acoust. Soc. Am.*, 73, 1545-1550.
3. Clifford, S. F., and R. J. Lataitis (1985): Mutual coherence function for line-of-sight microwave propagation through atmospheric turbulence, *Radio Science*, 20, 221-227.
4. Clifford S. F., and R. J. Lataitis (1987): Spatial and temporal filtering of scintillation in remote sensing, *IEEE Trans. Antennas Prop.*, AP-35, 597-604.
5. Churnside, J. H., and R. J. Lataitis (1987): Angle-of-arrival fluctuations of a reflected beam in atmospheric turbulence, *J. Opt. Soc. Am.*, 4, 1264-1272.
6. Churnside, J. H., R. J. Lataitis, and R. S. Lawrence (1988): Localized measurements of refractive turbulence using spatial filtering of scintillations, *Appl. Opt.*, 27, 2199-2213.
7. Hill, R. J., and R. J. Lataitis (1989): The effect of refractive dispersion on the bichromatic correlation of irradiances for atmospheric scintillation. *Appl. Opt.*, 28, 4121-4125.
8. May, P. T., B. L. Weber, R. G. Strauch, R. J. Lataitis, K. P. Moran, and D. A. Merritt (1989): Single-station ocean current vector measurements: Applications of a spaced antenna (SA) technique, *Geophys. Res. Lett.*, 16, 999-1002.
9. Kaimal, J. C., S. F. Clifford, R. J. Lataitis (1989): Effect of finite sampling on atmospheric spectra, *Boundary-Layer Meteorol.*, 47, 337-347.
10. Churnside, J. H., and R. J. Lataitis (1990): Wander of an optical beam in the turbulent atmosphere, *Appl. Opt.*, 29, 926-930.
11. Crawford, G. B., R. J. Lataitis, and S. F. Clifford (1990): Remote sensing of ocean flows by spatial filtering of acoustic scintillations, *J. Acoust. Soc. Am.*, 88, 442-454.
12. Lataitis, R. J., G. B. Crawford, and S. F. Clifford (1990): A simple low frequency acoustic technique for the remote measurement of the temporal ocean wave spectrum, *J. Acoust. Soc. Am.*, 87, 111-118.
13. Lataitis, R. J. (1992): Signal power for radio-acoustic sounding of temperature: The effects

- of horizontal winds, turbulence, and vertical temperature gradients, *Radio Sci.*, 27, 369-385.
14. Churnside, J. H., R. J. Lataitis, and J. J. Wilson (1992): Two-color correlation of atmospheric scintillation, *Appl. Opt.*, 4285-4290.
15. Clifford, S. F., J. C. Kaimal, R. J. Lataitis, and R. G. Strauch (1994): Ground-based remote profiling in atmospheric studies: An overview, *Proc. IEEE*, 82, 313-355.
16. Lataitis, R. J., S. F. Clifford, and C. L. Holloway (1995): An alternative method for inferring winds from spaced antenna measurements, *Radio Sci.*, 30, 463-474.
17. Doviak, R. J., R. J. Lataitis, and C. L. Holloway (1996): Cross-correlation and cross-spectra for spaced-antenna wind profilers - Part I: Theoretical Analysis,, *Radio Sci.*, 31, 157-180.
18. Lataitis, R. J., and S. F. Clifford (1996), The effect of atmospheric turbulence on the spot size of a RASS echo: A calculation revisited, *Radio Sci.*, 31, 1531-1540.
19. May, P. T., T. Adachi, T. Tsuda, and R. J. Lataitis (1996): The spatial structure of RASS echoes, *J. Atmos. Oceanic Technol.*, 13, 1275-1284.
20. Jordan. J. R. and R. J. Lataitis (1997): A potential source of bias in horizontal winds estimated using a 915 MHz acoustically enhanced profiler, *J Atmos. Oceanic Technol.*,14, 543-546.
21. Holloway, C. L., R. J. Doviak, S. A. Cohn, and R. J. Lataitis (1997): Cross-correlation and cross-spectra for spaced-antenna wind profilers - Part II: Algorithm to estimate wind and turbulence, *Radio Sci.*, 32, 967-982.
22. Jordan, J. R., and R. J. Lataitis (1997): Removing ground and intermittent clutter contamination from wind profiler signals using wavelet transforms, *J. Atmos. Oceanic Technol.*, 14, 1280-1297.
23. Cohn, S. A., C. L. Holloway, S. P. Oncley, R. J. Doviak, and R. J. Lataitis (1997): Validation of a wind measurement algorithm and application of a spaced-antenna wind profiler for high resolution observations, *Radio Sci.*, 32, 1279-1296.
24. Tatarskaia, M., R. J. Lataitis, B. B. Stankov, and V. V. Tatarskii (1998): A numerical method for synthesizing atmospheric temperature and humidity profiles, *J. Appl. Meteorol.* 37, 718-729.
25. Wilfong, T. L., D. A. Merritt., R. J. Lataitis, B. L. Weber, and R. G. Strauch (1999): Optimal generation of wind profiler spectra, *J. Atmos. Oceanic Technol.* 16, 723-733.
26. Jordan, J. R., B. D. Templeman, S. W. Abbott, and R. J. Lataitis (1999): Wavelet filtering of sodar reflectivity signals, *J. Meteorology and Atmospheric Physics*, vol. 71 pp. 25-34 (1999).
27. White, A. B., R. J. Lataitis, and R. S. Lawrence (1999): Space and time filtering of remotely

sensed variables, J. Atmos. Oceanic Technol., 16,1967-1972, 1999

28. Ostashev, V.E., E. Salomons, S. F. Clifford, R. J. Lataitis, D. K. Wilson, Ph. Blanc-Benon, D. Juve (2001): Sound propagation in a turbulent atmosphere near the ground: Parabolic equation approach, J. Acoust. Soc. Am., 109, 1894-1908
29. Salomons, E., V. E. Ostashev,, S. F. Clifford, R. J. Lataitis (2001): Sound propagation in a turbulent atmosphere near the ground. An approach based on the spectral representation of refractive index fluctuations, J. Acoust. Soc. Am., 1881-1893.
30. Ostashev, V.E. , S.F. Clifford , R.J. Lataitis , A. Muschinski , and A.L. Fabrikant (2001): Amplitude-Modulated Radio-Acoustic Sounding, 87: 717–720.
31. May, P.T. , C. Lucas , R.J. Lataitis , and I.M. Reid (2003). On the use of 50 MHz RASS in thunderstorms. Journal of Atmospheric and Oceanic Technology, 20, 936-943.
32. Stankov, B.B. , E.E. Gossard , B.L. Weber , R.J. Lataitis , A.B. White , D.E. Wolfe , D.C. Welsh, and R. G. Strauch (2003): Humidity Gradient Retrievals for Wind Profiler Radars Using the NOAA/ETL: Advanced Signal Processing System, (SPS), 20, 3–22.

THESES, TECHNICAL REPORTS
CONFERENCE PROCEEDINGS, AND EXTENDED ABSTRACTS

1. Wang, Ting-I, R J. Lataitis, K. B. Earnshaw, and E. Moroz (1980): Analysis of data from two laser weather identifier systems, NOAA Tech. Memo. ERL WPL-65, 21 pp.
2. Lataitis, R. J. (1982): Statistics of Electromagnetic Wave Propagation Through a Turbulent Atmosphere, Masters Thesis, University of Colorado, 76 pp.
3. Bohlander, R. A., R. W. McMillan, V. T. Brady, G. F. Kirkman, M. J. Sinclair, J. W. Larsen, M. L. Blyler, R. P. Lilly, D. O. Ballentine, S. F. Clifford, J. T. Priestley, R. J. Hill, R. E. Cupp, N. L. Abshire, R. B. Fritz, W. Cartwright, G. R Ochs, R. J. Lataitis, J. J. Wilson, and G. M. Walford (1983): Observations of amplitude and angle-of-arrival scintillation in millimeter wave propagation caused by turbulence in clear air near the ground, Proc. 8th Int'l Conf. on Infrared and Millimeter Waves, 12-17 December, 1983, Miami Beach, FL, TH6.4.
4. Lataitis, R. J., L. C. Huff, and S. F. Clifford (1985): Turbulence effects on a rapid precision leveling system, Proc. 3rd Int'l Symposium on the North American Vertical Datum, 21-26 April, 1985, Rockville, MD, 343-352.
5. Churnside, J. H., and R. J. Lataitis (1985): Performance characteristics of a rapid precision leveling system testbed, NOAA tech. Memo. ERL WPL-127, 57 pp.
6. Lataitis R. J., R. S. Lawrence, S. F. Clifford, D. M. Farmer, and G. R. Ochs (1986): Remote sensing using spatial filters: A case study, NOAA Tech. Memo. ERL WPL-140, 32 pp.
7. Lataitis, R. J., G. B. Crawford, and S. F. Clifford (1988): A new acoustic technique for the remote measurement of the temporal ocean wave spectrum, Proc. OCEANS '88 Conf., Oct. 31-Nov. 2, 1988, Baltimore, MD, 315-317.
8. Hill, R. J., R. A. Bohlander, S. F. Clifford, R. W. McMillan, and R. J. Lataitis (1989): Fluctuations in millimeter-wave signals caused by clear-air turbulence and inclement weather, SPIE 1989 Tech. Symposium on Aerospace Sensing, 27-31 March, 1989, Orlando, FL, 234-242.
9. Lataitis, R. J., and J. H. Churnside (1989): Propagation of an elliptical laser beam through the turbulent atmosphere, NOAA Tech. Memo. ERL WPL-165, 13 pp.
10. Lataitis, R. J., and J. H. Churnside (1989): Turbulence effects on reflected optical patterns, NOAA Tech. Memo. ERL WPL-166, 10 pp.
11. Lataitis, R. J., and J. H. Churnside (1989): Statistics of two-color laser beam propagation in the turbulent atmosphere (spectral correlation), NOAA Tech. Memo. ERL WPL-167, 17 pp.
12. Churnside, J. H., R. J. Lataitis, and L. C. Huff (1989): A theoretical and experimental investigation into turbulence effects on the rapid precision leveling system (RPLS), NOAA Tech. Memo. ERL WPL-168, 65 pp.

13. Churnside, J. H., and R. J. Lataitis (1989): Probability density function of optical scintillations (scintillation distribution), NOAA Tech. Memo. ERL WPL-169, 40 pp.
14. Lataitis, R. J., and J. H. Churnside (1989): Statistics of a reflected laser beam in atmospheric turbulence, NOAA Tech. Memo. ERL WPL-172, 86 pp.
15. Hill, R. J., S. F. Clifford, R. J. Lataitis, and A. D. Sarma (1989): Scintillation of millimeter-wave intensity and phase caused by turbulence and precipitation, NATO-Secret Electromagnetic Wave Propagation Panel Symposium on "Atmospheric Propagation in the UV, Visible, IR, and MM-Wave Region and Related Aspects", 9-13 Oct., 1989, Copenhagen, Denmark, AGARD 45th Conf. Proc. No. 454, 7-1 to 7-6.
16. R. J. Lataitis, S. F. Clifford, And P. T. May (1990): Tropospheric wind profiling using radar "interferometry" (A feasibility study of a compact mobile system), NOAA Tech. Memo. ERL WPL-177 34 pp.
17. Clifford, S. F., D. M. Farmer, R. J. Lataitis, and G. B. Crawford (1990): Ocean remote sensing by acoustic scintillation techniques, Proc. 5th Int'l Symposium on Acoustic Remote Sensing of the Atmosphere and Oceans, 6-9 Feb., 1990, New Delhi, India, 189-197.
18. Clifford, S. F., R. J. Hill, R. J. Lataitis, R. A. Bohlander, and R. W. McMillan (1990): Millimeter wave propagation through the turbulent atmosphere, Proc. Int'l Conf. on Millimeter Wave and Far Infrared Technology, 19-23 June, 1990, Beijing, China, Georgia Institute of Technology, Atlanta GA, 1-4.
19. Sarma, A. D. ,R. J. Hill, and R. J. Lataitis (1990): Effect of rain on millimeter wave amplitude scintillation spectra, Proc. Int'l Conf. on Millimeter Wave and Microwave (ICOMM-90), 14-16 Dec., 1990, Dehadrun, India.
20. Churnside, J. H., R. J. Lataitis, and J. J. Wilson (1991): Frequency correlation of atmospheric scintillation, NOAA Tech. Memo. ERL WPL-202, 16 pp.
21. Lataitis, R. J. (1991): The longitudinal-transverse coherence function for a spherical wave propagating through homogeneous atmospheric turbulence: Implications for RASS, NOAA Tech. Memo. ERL WPL-206, 19 pp.
22. Lataitis, R. J. (1991): Internal wave contributions to ocean remote sensing using acoustic scintillation analysis, NOAA Tech. Memo. ERL WPL-209, 53 pp.
23. Lataitis, R. J. (1991): A radar equation for the radio-acoustic sounding of temperature, Symposium on Lower Tropospheric Profiling: Needs and Technologies, 10-13 Sept., 1991, Amer. Meteorol. Soc., Boston MA, 89-90.
24. Jordan, J. R., and R. J. Lataitis (1992): Feasibility study for a low-altitude wind and temperature profiler, NOAA Tech. Memo., ERL WPL-222, 22 pp.

25. Ochs, G. R., R. J. Lataitis, and J. J. Wilson (1992): Theory and performance of the WPL Crosswind Profiler Model II, NOAA Tech. Memo. ERL WPL-227, 35 pp.
26. Lataitis, R. J. (1992): Theory and Application of a Radio-Acoustic Sounding System (RASS), Ph.D. Thesis, University of Colorado, 208 pp.
27. Bedard, A. J., and R. J. Lataitis (1993): Application of multiple RASS systems for humidity profiling using acoustic differential absorption, Preprint of Eighth Symposium on Meteorological Observations and Instrumentation, 17-22 Jan., 1993, Anaheim, CA, J130-J135, Am. Meteorol. Soc., Boston MA.
28. Lataitis, R. J., R. G. Strauch, and K. P. Moran (1993): Temperature errors in RASS caused by winds and turbulence, Proc. 26th Intl. Conf. on Radar Meteorol., 24-28 May, 1993, Norman, OK, Am. Meteorol. Soc., Boston MA.
29. Lataitis, R. J. (1993): Theory and application of a radio-acoustic sounding system (RASS), NOAA Tech. Memo. ERL WPL-230, 207 pp.
30. Lataitis, R. J., S. F. Clifford, and C. L. Holloway (1994): An alternative method for inferring winds From spaced-antenna measurements, Proc. Third Intl. Symp. on Tropospheric Profiling: Needs and Technologies, Aug 30 - Sept. 2, 1994, Hamburg, Germany, pp. 277-279.
31. Doviak, R. J., C. L. Holloway, and R. J. Lataitis (1994): A generalized theoretical analysis of cross-correlation and -spectra in spaced-antenna wind profilers, Proc. Third Intl. Symp. on Tropospheric Profiling: Needs and Technologies, Aug 30 - Sept. 2, 1994, Hamburg, Germany, pp.274-276.
32. Jordan, J. R. and R. J. Lataitis (1994): Wind estimation using an acoustically enhanced five beam RASS system, Proc. 7th Int'l Symp. on Acoustic Remote Sensing and Associated Techniques of the Atmosphere and Oceans, Oct. 3-7, 1994, Boulder, CO.
33. Lataitis, R. J., Diffraction tomography applied to the remote sensing of atmospheric and oceanic boundary layers (1994): Proc. 7th Int'l Symp. on Acoustic Remote Sensing and Associated Techniques of the Atmosphere and Oceans, Oct. 3-7, 1994, Boulder, CO.
34. Doviak, R. J., R. J. Lataitis, C. L. Holloway, and J. Van Baelen (1994): A generalized theoretical analysis of cross-correlation and cross-spectra for spaced-antenna wind profilers, NCAR Technical Note NCAR/TN-407+STR, 105 pp.
35. Doviak, R. J., R. J. Lataitis, C. L. Holloway, J. Van Baelen, S. Cohn (1995): A generalized theoretical analysis and application of cross-correlation to spaced-antenna wind profilers, Preprint. IEEE Geoscience and Remote Sensing Symposium, Firenze, Italy, pp. ??-??.
36. Lataitis, R. J. and R. J. Doviak (1995): Precision of spaced-antenna wind estimates, Prep. 27th Conf. Radar Meteor., 9-13 October, Vail, Colorado, pp.717-719.

37. Holloway, C. L., R. J. Doviak, S. A. Cohn, R. J. Lataitis, and J. Van Baelen (1995): Algorithms to retrieve wind from spaced-antenna wind profilers, Preprint. 27th Conf. Radar Meteor., 9-13 October, Vail, Colorado, pp. 323-325.
38. Holloway, C. L. R. J. Doviak, S. A. Cohn, and R. J. Lataitis(1996): Retrieval of boundary-layer turbulence with spaced-antenna wind profilers, Preprint. IEEE Geoscience and Remote Sensing Symposium, Lincoln, Neb., May 36-31, 1996
39. Holloway, C. L., R. J. Doviak, S. A. Cohn, R. J. Lataitis, and J. Van Baelen (1995): Time-domain algorithms to retrieve wind from spaced-antenna wind profilers, Proc 7th Workshop on Technical and Scientific Aspects of MST radar, Nov. 7-11, 1996 Hilton Head, North Carolina, pp. 372-374.
40. Doviak, R. J., S. A. Cohn, C. L. Holloway, and R. J. Lataitis (1996): Recent developments in Doppler and related processing, Proc. 3rd Italian Symp. on Meteorological Radar, Tor Vergata University, Rome, Italy.
41. Jordan, J.R., and R.J. Lataitis. Using wavelet filtering to reduce ground clutter contamination in wind profiler signals. Proceedings, COST-76 Profiler Workshop, Engelberg, Switzerland, May 12-16, 1997, COST-76/Swiss Meteorological Institute (SMI), 119-122 (1997).
42. Doviak, R. J., S. A. Cohn, C. L. Holloway, and R. J. Lataitis: The theory of spaced antenna profilers: Theoretical calculation of their performance and comparison with Doppler beam swinging profilers, Proceedings COST-76 Profiler Workshop, June 1997, Zurich, Switzerland, 102-105.
43. Wolfe, D., R. J. Lataitis, B. L. Weber, T. L. Wilfong, D. A. Merritt, D. B Wuertz, D. C. Welsh, M. K. Simon, A. Francavilla, J. Cogan, J. Neuschafer, and P. Revely, Design and preliminary field test of a combined RF/acoustic phased-array antenna for profiler operations, Proceedings COST-76 Profiler Workshop, June 1997, Zurich, Switzerland, 151-154.
44. Holloway, C. L., R. J. Doviak, S. A. Cohn, J. L Chau, and R. J. Lataitis, Determination of wind and scale of diffraction patterns of scatter from horizontally anisotropic refractive index irregularities, Proc. MST8 Workshop, Nov. 1997, India.
